Introduction - About Us

J-Software Management Technology is an IT company registered in Nigeria that develops management web application for schools and other establishments.

Presently, we have developed the latest School Management Web Application which will be used to register students online, grade students results, save them in our database and upload them on the school website which will be created for free. This School Management Web Application can grade thousands of students' results within a second. The beauty of it all is that we will manage the students result, create a result checking website for the school and to generate funds for the school by selling the result checking card to the students before they will be able to view their results. All they need to do is login to the school website and enter their details as requested then click check result. In addition, we have an Online Examination Web Application also known as Computer Based Test (CBT). This enables the students to write their class assessment from anywhere, anytime as far as there is internet connection.

Our School Management Web Application consists:

- (1.) Online Result Management Web Application
- (2.) Online Examination Management Web Application
- (3.) Online Accounting Management Web Application

- (1.) **Online Result Management Web Application:** This application automatically computes cumulative scores and grades according to figures being keyed in. It also reduces the rate of human errors.
Example: miscalculation of cumulative scores.
- (2.) **Online Examination Management Web Application:** This application will help the students prepare for Jamb CBT by getting used to computer in writing their class assessment from the school website. It also makes the students to enjoy the e-learning method by given them the privilege to view their corrections after taking the test or examination.
- (3.) **Online Accounting Management Web Application:** This helps the school owner to easily monitor all payments made by the students at any point in time. It also helps the school bursar to easily save and retrieve the students' payment records at a click of a button.

Nature of the Service – School Result Grading Management Service

J-Software Management Technology is a company that is made up of software developers who never disappoints to deliver the unique world class technology.

J-Software Management Technology is aimed at automating the entire school process coupled with providing a computer based test web application which will be managed by qualified and experienced teachers that have been trained to suit the learning needs of the students' right from Kindergarten to Junior Primary through Senior Secondary and Higher Institution.

The objectives of J-Software Management Technology:

- ✓ Provide e-Learning opportunities for the child.
- ✓ Provide a world class integrated IT curriculum and learning environment.
- ✓ Store, Retrieve, Update and Create Reports on any student at the click of a button.
- ✓ Provide a student performance notification engine.
- ✓ Provide a test/exam results management system.
- ✓ Provide a website for the school.

The benefits of J-Software Management Technology in your school:

1. J-Software Management Technology changes your manual method of computing students' Results to an automatic method of computing.
2. We will start managing your school results as soon as you apply for our service.
3. Automatically compute cumulative scores and grades according to figures being keyed in.
4. Helps you to call-up a particular student's result at any point in time.
5. Students can still view their results several years after graduation because their result will be saved in our database for life.
6. Rates your school higher than your competitors.
7. Reduces the rate of human errors. Example: miscalculation of cumulative scores.
8. Automatically award remarks to students results based on their grades.
9. Parents can easily have access to their children's academic results anywhere, anytime.
10. Students can prepare for JAMB by getting used to computer in writing their home quiz from the school website.

Our Proposal

Invitation to you

We apply to create a result checking website for your school “for free”, only if you will invite us to take advantage of this opportunity and make your school a leader in Information Technology Education for your students and teachers.

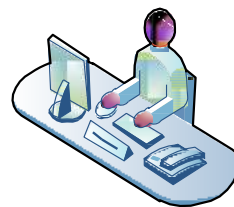

Proposition of the School Management Web Application

The School Management Web Application is a complete Information Technology Package that covers all aspects of the school management as stated below.

1. ***Termly and Annual Results Management*** – This area, we will compute your students’ continuous assessment results, end of term report cards and annual report which will determine if a student is promoted or not.
2. ***Accounting Management System*** – For ease storage and retrieval of students payment records, we have provided two (2) intelligent modules;
 - (a.) Manage Bills: This module helps the school management to easily create bills for each class in all academic session or term.
 - (b.) Electronic Record Book: This allows the school management to easily have access to all the students’ payment report at the touch of a button. It also helps the bursar to easily retrieve the students’ payment records at a click.

Manual Method

Computerized Method

3. **Instant Messenger** – Notifying a parent/guardian as soon as a student’s result is being uploaded on the school website. With our notification engine, the school can notify any number of parent/guardian for any reason at all times which may include the school programmes/reminder.

4. **Result Checking Website** – To make your school easily available to the entire world, we will build a result checking website for your school and if your school website already exists, we will assist you on upgrading it so that information about the school can be easily retrieved.

5. **Generate Funds** – Become our corporate partner and earn 50% of our income by selling our result checking card every session.

EARNING FORECAST:

Estimated number of students in your school: 500 students.

Cost of result checking card per session: ₦2,000.

CALCULATION:

500 students multiplied by ₦2,000 per result checking card = ₦1,000,000.

₦1,000,000 multiplied by 50% of your commission = ₦500,000.

Your total earning per session = ₦500,000 without any cost.

50% COMMISSION SCALE OF REVENUE

No. of Students	Amount	Duration
500	₦500,000	Per Session
1000	₦1,000,000	Per Session
1500	₦1,500,000	Per Session
2000	₦2,000,000	Per Session
2500	₦2,000,000	Per Session
3000	₦3,000,000	Per Session
3500	₦3,500,000	Per Session
4000	₦4,000,000	Per Session
4500	₦4,500,000	Per Session
5000	₦5,000,000	Per Session

If you accept this proposal

The following are what we need for creating the Result Checking Website for your School:

1. Is the website for Primary, Secondary or Both?
2. The School Name
3. The School's Address
4. The School's Telephone Number
5. The School's Logo
6. The School's Motto
7. The History About the School
8. The School's Vision and Mission
9. The School's Anthem and Pledge (Written and Audio)
10. The School's Entertainment Video
11. The Latest School News
12. The School's Environment Pictures and the Students Group Pictures
13. Proprietor's Name and Passport Photograph
14. Principal and Vice Principal's Name and their Passport Photographs
15. School Stamp with Principal's Signature on top
16. Names of Teachers with Subjects they offer and their Classes
17. Names of Form Teachers and their Classes
18. The Total Cost for Registering a New Student into JSS1 Class
19. The School's Bank Details to enable parents pay their children's fees from any location
20. The percentage for each Class Assessment Total and Exam Total (Example: 1st CA=10%, 2nd CA=10%, 3rd CA=10%, Exam=70%)

STUDENT REGISTRATION FORM FOR THE RESULT CHECKING WEBSITE

Attach Student
Passport Photograph
(On School Uniform)

PLEASE FILL IN THIS FORM CORRECTLY

Student Personal Data

Student Full Name:		Class Example: JSS1A Class:	
Surname: _____ First Name: _____ Middle Name: _____			
Gender: _____	Date of Birth: _____	State of Origin: _____	L.G.A: _____
Home Address: _____		Country: _____	
Sports House: _____		Weight: _____ kg	Height: _____ meters

Parent/Guardian Information

Parent/Guardian Name:			
Title: _____	Surname: _____	First Name: _____	Middle Name: _____
Relationship to student		(Father, Mother, Uncle, etc.): _____	
Mobile Number		Email Address	

Primary School Attended With Date

Primary School Name:	

Start Year	End Year

More About You

Hobbies	Disabilities (If Any)
---------	-----------------------

This Registration Form will be given to the students to enable them give us an accurate information about themselves and their parents, which will be used for generating the students registration number.

Registration Number is a unique number assigned to each student, which will be required for checking their termly/annual result online.

Ensure that your students provide accurate information while filling this form, and remember to instruct them to fill all fields that are marked with this symbol: *

The reason why we made those fields mandatory is because the information is very important. For example; parent phone number is required because it will be used to notify their parents that the student's result has been uploaded on the school website.

Notifying the parents about their children's result is very essential these days because some students who make poor results may lie to their parents that their school results have not yet been published while the results have already been published.

Parents that want their children that travel abroad to further their education get disappointed when the school wants to verify their children's result. This is as a result of lack of standard result verification system in your school to enable the foreign schools to verify if the result is authentic or not.
